### FELL INTO WATER

Patrick Campbell Died After Being Taken Out of Ocean.

Hampton Beach, N. H., July 13.—Patrick Campbell of Amesbury met his death here yesterday, falling out of a motor boat some distance off shore and being insensible and beyond help when his body was washed upon the beach at 4:30 o'clock in the afternoon. He died a few minutes later. Exactly what happened will never be known, but it is supposed that he had an attack of heart trouble and pitched into the water.

Mr. Campbell was employed by the Atlantic Motor Boat company of Amesbury, and was sent out with boats built by the company to deliver them to purchasers. He was in the performance of this duty yesterday, taking a boat from Amesbury to Portland, Me. He left Amesbury at 11 o'clock.

Yesterday afternoon some of the help in the casino saw a body in the ocean directly in front of the building and gave an alarm. A few minutes later the waves brought it within reach, and it was found that the man was breathing, but unconscious. Everything that could be done to resuscitate him was tried, but without effect.

Soon afterward the boat from which Mr. Campbell had fallen, drifted on the beach, uninjured, and containing no clue to the cause of its pilot's collapse.

Mr. Campbell was well known along the shore. He had followed the sea for years and was a skillful, trustworthy man. He is survived by his wife.

### SUES FOR \$5,000.

W. P. Melvin Has William Taylor Arrested.

Goffstown, N. H., July 13.—Much excitement was caused here yesterday when Deputy Sheriff Buntin and Attorney John Stark arrested William Taylor of this place on the complaint of William P. Melvin of East Wear, who charges alienation of his wife's affections and sues for \$5,000.

Mr. Taylor is reputed to be wealthy. Mrs. Melvin went to East Wear from Leominster, Mass., and was engaged as a school teacher. She and Mr. Melvin have one child, a boy three years old, who is with Mrs. Melvin's mother in Leominster.

It is alleged that friendly relations between Mrs. Melvin and Mr. Taylor have extended over a considerable length of time. Mrs. Melvin is said to have divulged her relations with Taylor to her husband. He listened patiently and at the conclusion sought his attorney.

He went with Mr. Stark and Deputy Sheriff Buntin to the home of Mr. Taylor, where they served the papers on him.

Mr. Taylor invited them to ride with him in his automobile to Manchester, which offer was accepted. Upon arriving in Manchester Mr. Taylor secured bail.

### STUDENT EXONERATED.

Dartmouth Men Blameless in Pike's Peak Case, Says Court.

Colorado Springs, July 13.—John Clarke and George Shipley, the Dartmouth college '08 graduates who were charged with attacking H. H. Robinson, the Pike's Peak Summit hotel manager, were exonerated from all blame yesterday afternoon by Justice of the Peace Tombs.

They were discharged from custody, the court declaring that the evidence tended to show conclusively that the assault was in reality initiated by complaining witnesses, and expressing the belief that the defendants did not exceed the bounds permitted in defending themselves.

The court stated that in his opinion the first duty of a hotel proprietor is civility. In connection with this point, he declared the evidence tended to show that in the past, on similar occasions, on being routed out of bed late at night Robinson had shown a quarrelsome disposition. The evidence also showed that the defendants had hired a special train, at their expense to bring Robinson down from the peak to the hospital.

### CENSOR AT WORK.

Suppressing News of the Great Spanish Mine Explosion.

Madrid, via Frontier, July 13.—Reports from Belmez say that scores of bodies have been removed from the mine where the terrible explosion occurred, entombing 100 miners. Details of the accident are suppressed by the official censor and great difficulty is being experienced in obtaining the news. The owners of the mine deny responsibility for the disaster. While the authorities are making a supreme effort to keep the enormity of the disaster secret, it is believed the entombed will be taken out dead. The galleries are clogged with falling coal.

#### BILL LANGE'S FEAT.

One of the Famous Old Outfitter's Sensational Catches.

The greatest individual feat ever performed was one by which Bill Lange saved a game for Chicago and \$200 for himself in Washington in 1896. There is an old story connected with the play. Lange had missed a train in Boston two days before, failed to reach New York in time to play there, and Anson had fined him \$100. Thereupon he missed a train to Washington—arrived on the grounds after the teams had practiced and just in time to play, and for that Anson fined him another \$100. The game that afternoon went eleven innings, Chicago scoring one run in the eleventh. There were two men out and a runner on the bases when "Kip" Selbach, then one of the hardest hitters in the business, smote the ball a terrific blow and sent it flying over Lange's head toward the center field fence. The hit seemed a sure home run, but Lange, a man weighing 225 pounds, turned and without looking sprinted desperately straight out toward the fence, racing with the flying ball. At the last instant, as the ball was going over his head, Lange leaped, stuck up both hands, turned a somersault and crashed against the fence. The boards splintered, one entire panel crashed outward, and out of the wreckage crawled Lange, holding the ball in his hand, and the crowd went mad. Lange came flumping in, with the crowd standing on seats shouting, and he said to Anson, "Fines go, cap?" "Nope," said Anson, "and the catch had saved the big feller \$200."—Hugh S. Fullerton in American Magazine.

#### THE FIRST ALMANACS.

They Attempted to Foretell Men's Destiny From the Stars.

The almanac, properly so called in its origin, is not merely a device for keeping people in mind of the progress of the year. It is an attempt to show what destiny has in store for us as indicated by the position of the stars in any particular year, and, according to astrological lore, the destinies of men are ruled by the different aspects of the planets, so also the human body is subject to the influence of the constellations through which the sun appears to pass in his yearly course. A French almanac of 1610 gives a diagram of the human body surrounded by all the signs of the zodiac and indicates the various organs and members over which these signs have power, and this for a guide pour les saignes, or to show at what period blood may be let
